Professional Summary

B.Tech Computer Science student with hands-on experience in **full-stack web development** using **HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, and MongoDB**. Strong foundation in **C, Java, Python, Data Structures, and OOP**, with experience building REST APIs, authentication systems, and Docker-based deployments. Interested in scalable backend systems and real-world software engineering challenges.

Education

Aditya College of Engineering and Technology, Surampalem	2023 – 2027
Bachelor of Technology in Computer Science and Engineering	CGPA: 8.4/10
Balu Best Junior College	2021 – 2023
Intermediate (MPC)	Percentage: 92.4%

Experience

Frontend Development Intern — Technical Hub Pvt. Ltd.	May 2025 – Jun 2025 Internship Certificate
- Created 5+ structured and accessible web pages using semantic HTML, improving UI consistency and maintainability. - Built responsive layouts using CSS selectors and Flexbox across 5+ pages, improving cross-device compatibility. - Engineered responsive interfaces supporting 3+ device breakpoints using media queries for mobile, tablet, and desktop screens. - Constructed reusable UI components across 5+ responsive layouts, reducing duplication and improving UI consistency.	

Projects

Multi-Tenant SaaS Platform – Project & Task Management System	GitHub
<i>React.js, Node.js, Express.js, PostgreSQL, Docker, JWT</i>	
- Architected a multi-tenant SaaS platform supporting multiple organizations using shared-schema PostgreSQL with tenant-level isolation. - Built 15+ RESTful API endpoints for authentication, tenant onboarding, and project/task lifecycle management in Node.js and Express.js. - Enabled Kanban workflow with 3 task states and multi-user role-based updates across project pipelines. - Orchestrated backend, frontend, and database services using Docker Compose for reproducible multi-service deployment.	
SJ Connect – Senior Junior Interaction Platform	GitHub Live
<i>HTML, CSS, JavaScript, LocalStorage</i>	
- Engineered a role-based interaction platform supporting 2 user roles with structured Q&A modules. - Established client-side authentication supporting session persistence and role-based access control using JavaScript and LocalStorage. - Designed 4 responsive UI modules (Home, About, DoubtBox) for structured peer interaction workflows. - Enhanced usability by structuring navigation across 4 interaction modules, improving accessibility and feature discoverability.	

Technical Skills

- Languages:** C, Java, Python, JavaScript, SQL
- Frontend:** HTML, CSS, Responsive Web Design
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- Databases:** PostgreSQL, MongoDB, Oracle Database
- DevOps & Tools:** Git, GitHub, Docker, Docker Compose, Linux, VS Code
- Core Computer Science:** Data Structures, DBMS, Operating Systems, Object-Oriented Programming

Coding Profiles

CodeChef: Solved 350+ problems, Rating 1155 , participated in 41+ rated contests	Profile
LeetCode: Solved 100+ problems, earned a 50-Day Coding Streak Badge	Profile
HackerRank: Achieved 3 Star in Java, Python, SQL, and C; 2 Star in JavaScript	Profile

Certifications

Red Hat Certified System Administrator (RHCSA) — Red Hat	Credential
MongoDB Associate Developer Certification — MongoDB	Credential
Oracle Certified Foundations Associate – Database — Oracle	Credential
GitHub Foundations Certification — Microsoft	Credential
Oracle Certified Foundations Associate – Java — Oracle	Credential
